

Unzip the Moteino Zip File

That's the content

Nome	Data	Tipo
bootloaders	22/02/2015 14:28	Cartella di file
variants	22/02/2015 14:28	Cartella di file
boards.txt	19/11/2014 00:00	Documento di testo

Search the installing Arduino folder:

in my case C:\Program Files (x86)\Arduino

Go to hardware\arduino\avr folder

C:\Program Files (x86)\Arduino\hardware\arduino\avr

That's the content:

Nome	Ultima modifica
bootloaders	22/02/2015 14:01
cores	22/02/2015 14:00
firmwares	22/02/2015 14:00
libraries	22/02/2015 14:00
variants	22/02/2015 14:01
boards.txt	22/02/2015 14:07
platform.txt	08/02/2015 23:39
programmers.txt	08/02/2015 23:39

- 1) Close Arduino IDE
- 2) Open the Moteino's boards.txt file and copy the content in the Arduino's boards.txt file and save it.
- 3) Open the Moteino's bootLoaders folder and copy the Moteino and MoteinoMega folders inside the Arduino's bootloader Folder.
- 4) Open the Moteino's variants Folder and copy the MoteinoMega Folder inside the Arduino's variants Folder.
- 5) Open the Arduino IDE and you will find the new Boards "Moteino" and "MoteinoMEga"
